Document Retention Policy

1 Introduction

This policy sets out how long records and information will normally be held by us and when that information will be confidentially destroyed.

2 Responsibility

The Data Officer is responsible for implementing and monitoring compliance with this policy. They will undertake an annual review of this policy to verify that it is in effective operation.

3 Our Process

Information (hard copy and electronic) will be retained for at least the period specified in our Records retention schedule.

All information must be reviewed before destruction to determine whether there are special factors that mean destruction should be delayed, such as potential litigation, complaints or grievances. Hard copy and electronically held documents and information must be deleted at the end of the retention period. Hard copy documents and information must be disposed of by placing in the confidential waste bin.
